ABOUT STELLAR

STELLAR COIN

Stellar is a international project which built on (BEP-20) BSC .It aims to offer passive income opportunities for users through staking rewards, referrals, and community-driven growth. The native token, Stellar Network, plays a central role in the ecosystem and will be used for staking, rewards, and future developments such as crowdfunding, automated bot trading, and a crypto card.

VISION AND MISSION

VISION

Stellar coin envisions a global community of users who can earn passive income, participate in decentralized finance (DeFi), and access financial services using a (BEP-20) BSC blockchain-based platform.

MISSION

The mission is to create a sustainable ecosystem that rewards users for staking, referrals, and community growth, while providing access to a range of utility services , web3 , trading and a crypto card.

ABOUT CRYPTO CURRENCY

What is cryptocurrency?

Cryptocurrency is digital money that doesn't require a bank or financial institution to verify its transactions and can be used for purchases or as an investment. Transactions are then verified and recorded on a blockchain, an unchangeable ledger that tracks and records assets & trades. Since its inception, now it has more than 10,000 cryptocurrencies and over 2.75 trillion market value.

How cryptocurrency created?

Mining is the term used to describe the process of creating crypto. Crypto transactions need to be validated, and mining performs the validation and creates new - cryptocurrency. Mining uses specialized hardware and software to add transactions to the blockchain.

Cryptocurrency vs Traditional Currency?

The government produces traditional currency in paper bills and coins you can carry with you or put in a bank. You can use it for purchases and other transactions that require cash. The government backs traditional currency, while cryptocurrency has no government, bank, or financial institution controls. While you can hold traditional currency bank or financial institution, you store cryptocurrencies in a digital wallet.

WHAT IS DECENTRALIZED

Decentralized marketing is created with an automated contract that offers you maximum security and sustainability. A Smart contract is an automatic execution algorithm. It exists within the Binance Blockchain. One of the top crypto graphics currency. Smart contract likes cryptocurrencies are decentralized. They work strictly according to underlying program without the possibility of subsequently changing the define execution. The code that logic of the contract expiration of on the Blockchain & all calculations are provided by millions of computers around the world. This ensures that there is no risk of hacking into the smart contract & stopping the project.

WHAT IS SMART CONTRACT

Smart contracts are simply programs stored on a blockchain that run when predetermined conditions are met. They typically are used to automate the execution of an agreement so that all participants can be immediately certain of the outcome, without any intermediary's involvement or time loss. They work strictly according to underlying This is the new phenomenon of the modern decentralized economy allows, in accordance with the program code, process & distribute financial flows of digital assets. All processes take place in an open decentralized blockchain network

Smart Contract

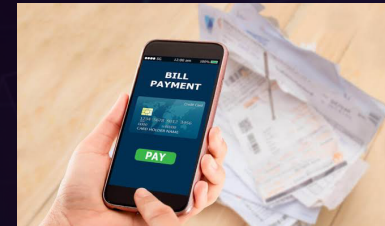

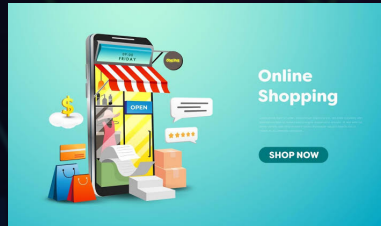

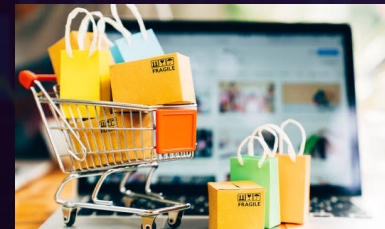

BINANCE SMARTCHAIN

Binance Smart Chain (BSC) is best described as a blockchain that runs in a parallel of the Binance Smart Chain. Unlike Binance blockchain (**BSC**) boost smart contract functionality & compatibility with Ethereum virtual machine (**EVM**) The design goal here was to leave the right throughout at **Binance Chain** intact with introducing smart contracts into its ecosystem.

STELLAR CARD

Shop & Pay with **Stellcard** (BSC SCard) that enables simple & real-time use of digital currency for Stellar community
